About Us

Kaelok PTY LTD is a 100% black-owned Level 1 BBBEE company specializing in Electrical, Civil, Solar, General Building, and Information & Telecommunication Technology (ICT) solutions. Established in 2015, we have been delivering high-quality infrastructure and construction services across South Africa, with offices in Longmeadow Business Estate, Johannesburg, and Gopane District, Zeerust, North West. With over 10 years of industry experience, Kaelok PTY LTD is committed to quality, efficiency, and sustainability. The company takes pride in delivering projects that meet the highest standards, driving progress and innovation in South Africa's infrastructure landscape.

Clients & Projects

Kaelok PTY LTD has successfully delivered projects for major clients, including Glencore Kroondal Mine, the Department of Public Works, Concor Pty Ltd, PLS Construction, and Mmolawa Investments, among others. Our work spans building construction, civil works, fencing, road infrastructure, and electrical projects, with notable achievements such as constructing additional toilets for Glencore Kroondal Mine, road paving in Rustenburg for Mmolawa Investments, mall construction in Zeerust for Concor Pty Ltd, and various fencing and infrastructure projects for Mogopo Transport & Projects and Mongatana Trading. With a track record of quality and efficiency, we continue to provide turnkey solutions across South Africa's construction and infrastructure sectors.

Since 2015

With over a decade of experience, we continue to deliver industry-leading infrastructure, construction, and energy solutions.

Vision

Kaelok PTY LTD envisions becoming a leader in infrastructure development and energy solutions, driving innovation and sustainability across South Africa and beyond. Our goal is to bridge excellence in industries, delivering world-class construction, civil engineering, and renewable energy projects that empower communities, enhance connectivity, and shape a more resilient and progressive future.

Mission

At Kaelok PTY LTD, our mission is to deliver high-quality, sustainable infrastructure solutions that meet and exceed client expectations. We are committed to building reliable, innovative, and future-proof projects in construction, civil works, electrical installations, and renewable energy. Through expert craftsmanship, efficiency, and a client-centric approach, we aim to drive progress, foster long-term partnerships, and contribute to South Africa's economic and infrastructural growth.

Core Values

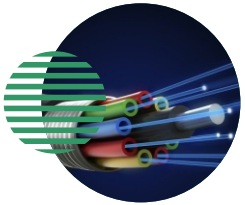

- 01. Excellence in Execution** – We uphold the highest standards in quality, efficiency, and professionalism in every project we undertake.
- 02. Innovation & Sustainability** – We embrace cutting-edge solutions and technologies to enhance infrastructure and energy sustainability.
- 03. Integrity & Reliability** – We operate with honesty, transparency, and accountability in all our business dealings.
- 04. Client-Centric Approach** – We prioritize client satisfaction by delivering tailored solutions that meet their needs and expectations.

Our Services

Fiber Optics and Electrical Projects

Our Fibre Optics and Electrical Projects service provides state-of-the-art fibre optic installation and electrical solutions for both commercial and residential properties. We offer full turnkey solutions from planning and design to implementation and maintenance. Whether you're upgrading network infrastructure or building a completely new Fibre Infrastructure, we ensure seamless connectivity.

Civils and Infrastructure Build Projects

We offer civil engineering and infrastructure services, specializing in the construction and maintenance of roads, bridges, drainage systems, and public works projects. From urban developments to large-scale infrastructure projects, our team ensures timely delivery with a focus on quality, safety, and sustainability.

General Building Projects (NHBC Number - 4000016267)

Our General Building Projects service covers the construction of residential, commercial, and industrial properties. From single-family homes to office buildings, we specialize in creating spaces that blend functionality, aesthetics, and durability. We handle everything from initial design and permits to construction and finishing touches

Electrical Kiosk Electronic Locking System Installation

Our Electrical Kiosk Electronic Locking System installation provides secure, automated access for kiosks, entry points, and high-security areas. We specialize in integrating advanced locking technology with your electrical infrastructure to create a seamless, secure user experience. Whether for retail, office buildings, or government facilities, our systems ensure your spaces remain protected

Fencing Projects

Our Fencing Projects service offers a range of fencing solutions tailored to the unique needs of residential, commercial, and industrial properties. From traditional wooden fences to modern steel security fencing, we ensure durable, aesthetically pleasing, and secure boundaries for your property

Solar Maintenance & Cleaning Services

We offer specialized solar panel maintenance and cleaning services to ensure your solar energy systems perform at their peak. Our expert technicians provide thorough cleaning, inspection, and maintenance, handling everything from panel surface cleaning to electrical system checks.

General Maintenance

We offer comprehensive maintenance solutions for residential, commercial, and industrial properties. Our service encompasses routine inspections, preventive maintenance, repairs, and emergency support to ensure your facilities operate smoothly and efficiently. From HVAC systems and plumbing to electrical installations and structural upkeep.
